## Image Processing Workshop

Detecting Colors in an Image

Make a Python script to detect the colors in the image.

Detect the colors in the image that is given above and type the name of each of the colors in their respective boxes using the functions discussed in today's workshop. The color of the text should be in red.

The python code needs to be submitted before 11AM on 30th of October, 2021. Partial submissions will be accepted.

Submission Link is Here
